Alex Slepenkov

Senior Full-Stack Engineer with 7+ years of experience developing scalable web applications, cloud-native systems, and microservices. Proven track record delivering high-impact solutions across fintech, GIS, and enterprise platforms. Passionate about problem-solving, team efficiency, and cutting-edge technologies to drive customer success.

EDUCATION

Master of Engineering - Computer Science

Sep 2016 - Jun 2018

Novosibirsk State University

Novosibirsk, Russia

Bachelor of Engineering - Information Systems

Sep 2012 - Jun 2016

Karaganda State Technical University

Karaganda, Kazakhstan

SKILLS

Programming Languages C# | SQL | JavaScript | TypeScript | Python

Tools & Platforms AWS | Azure | Github CI/CD | Jenkins | IIS Express | Esri (ArcObjects, ArcGIS SDK)

Databases PostgreSQL | MS SQL Server | MongoDB

Technologies .NET Framework | ASP.NET | REST APIs | Microservices | Docker | Node.js | React.js | Angular

EXPERIENCE

EPAM Systems Dec 2022 - Present

Software Engineer Astana, Kazakhstan

• Delivered a major feature integrating .NET Web API, a .NET Framework monolith, and a console application via Amazon services, decomposition, refinement, and implementation of key user stories.

- Facilitated daily stand-ups, ensuring smooth team collaboration and progress tracking.
- Optimized database operations, improving query efficiency, and reducing latency.
- · Mentored junior developers, providing guidance on best practices and technical skills.

2GIS Jul 2021 - Dec 2022

.NET Software Engineer

Novosibirsk, Russia

- Built a high-throughput SSIS ETL pipeline processing 200M+ rows daily for near real-time analytics.
- Designed and deployed an Excel-to-SQL migration utility, automating manual workflows.
- Implemented CI pipelines and test environments deploy in TeamCity.

FG BCS Nov 2020 - Jul 2021

Software Engineer

Novosibirsk, Russia

- Extended operational data warehouse capabilities to support MetaTrader event ingestion.
- Enhanced error handling and logging mechanisms, reducing incident triage time.
- Delivered critical backend features for the Data Warehouse support web service, improving reporting efficiency.

XTools Pro, Inc. Apr 2018 - Nov 2020

Junior Software Engineer

Novosibirsk, Russia

- Developed ArcGIS add-ins with WPF-based UI tools, increasing geodata operations productivity.
- Designed an asynchronous data search algorithm using Task Queues.
- Engineered Excel data integration features, streamlining workflows inside ArcGIS.

EPAM Systems Jan 2016 - Aug 2016

Junior Software Engineer

Karaganda, Kazakhstan

- Built custom VSTO-based UI controls for Microsoft Office suite, improving onboarding experience.
- Set up automated CI/CD pipelines with Jenkins, cutting manual deployment effort.

PET PROJECTS

dotnetcv 2025 - Present

• Building a production-grade template for .NET backend engineers to bootstrap microservices with Docker Compose, PostgreSQL, AWS LocalStack, and React. • Emphasizing modern design patterns (Clean Architecture, CQRS, DDD) and best practices for cloud-native development.

intube 2023 - 2024

• Building a social media downloader and file management app using Telegram Bot Api, Docker, Python, and AWS

stonks 2022 - 2023

- Developing a financial portfolio tracking and analysis tool using JavaScript, integrating data from various stock market APIs for real-time price updates and performance monitoring.
- Implementing advanced data processing and visualization techniques to provide users with insights on their portfolio's performance and future growth predictions.
